A big advantage of authorized service centre

Let us now look at some of the routine but important components

There are 4 important filters

The oil filter removes many of the particles and sludge

so it is must to change the oil filter regularly

Use recommended engine oil as suggested in your service manual

The Fuel Filter

dust and impurities from the fuel

Air Filter

ventilation and air-conditioning system

While oil may be the life-blood of the car's engine

without the coolant an auto engine would overheat extremely fast

leading to a mechanical breakdown and engine failure

the car battery has never been more important

static and periodical errors are checked

harmful environmental influences
